

# Summer task 2017

## AS Geography Summer Task – Explore My World

*Example;*

*“Stevenage is an outstanding geographical location?”*

Using the skills you have learnt in Geography over the years, you are going to produce a project that involves exploring the world around you. The project must involve you getting out into the world around you and finding out about the Geography of your home town.

Your project can take whatever form you think is most appropriate, for example:

- a written report,
- an annotated scrap book or photo montage
- a short video film,
- a photographic essay,
- an annotated map,
- an audio recording (perhaps including interviews of local people)
- expect you to use the local newspaper as a secondary source, plus any local books or information from the internet.
