

A level Physics – Summer task

Summer tasks for physics are all **online** at Isaac Physics : <https://isaacphysics.org/>

Instructions:

1. **Create an account** for yourself.
2. **Use the link** I will email to you to join the group **2017NobelPhysics**
3. **Complete the tasks** using your knowledge of physics from GCSE, a bit of help from the Isaac Physics site and a bit of **initiative** on your part.

The tasks will **self-mark** and you will be able to see your areas of strength and areas that you might like to do a bit of **preparation** for before September. We will discuss your completed tasks in September.

If you have problems accessing the tasks then email me (howard.boycott@nobel.herts.sch.uk) or Mrs Allum (helen.allum@nobel.herts.sch.uk) and we will be able to sort it out.

Have fun.

Mr Boycott, Mrs Allum.
